Download ->>> <http://bit.ly/2SHB8y9>

### About This Game

Born from 2 mates drinking beers, watching cricket, and believing they could do better than the overpaid Aussie spuds currently doing the rounds in world cricket, Spud Cricket VR is a Virtual Reality cricket game for the HTC Vive and Oculus Rift. Play 5,10 OR 20 overs against a mate, 1 innings at a time. Simple fun, slog it hard, casual cricket game. You will love smacking the bowler over the fence as you try to be the next Davey Warner! But you wont. Your a spud. Might get a game for Australia though...

Features include:

- Single or local multiplayer modes
- 3 types of matches - 5, 10 or 20 over match.
- 3 difficulty levels.
- Use of the HTC Vive hand controller for realistic batting action.
  - Bat either left or right handed.
- The bat has a sweet spot. Time those shots for the runs. Haptic feedback will tell the story.
  - AI fielders that adjust to your big shots.
- Not all batters were born equal. As you go down the batting list, so does the skill of your batters.
- Customisable line, length and speed for the bowler player in local multiplayer - Surprise your friend batting with a sudden slower delivery or a yorker.
- Double up with fielding customisation in local multiplayer - dont just bowl it different, plan your fielding setup as well and entice the batter into the big hit, only to get caught.
- In game crowd noise and reaction to shots, wickets and other moments.

- 
- Scoreboards both in game and for the desktop with detailed batter information.
    - Multiple views for Batter and bowler.
  - Action replays! You can repeatedly watch the big 6 you just smashed off your friends bowling!
  - Money for nothing and your runs for free? Hit the hovering target for free runs!

spud cricket vr

Great to see a route that goes all the way in to Chicago! Has buildings and everything done nice. This is one of my route recommendations. It is a quality made route, it is well done and neat. You get some equipment to drive on it with such as the passenger services and it is somewhat realistic. 9V/10. Loved it.  
Great aesthetic, very cool music, and relatable characters. I liked how the gameplay worked, it just made things flow really well. The actual story was very good and nicely implemented, and it played like an old teen suspense film which was cool.  
+ kudos for the ending, nice.

Would def. recommend. :). What can I say its free.

However, it just didnt seem immersive enough for me. I felt like ive seen this before. Dont get me wrong I recommend anyone with VR to try it.

Its not as overwhelming as people say but worth the ticket of admission.. The ost is nice and the fanbook is lovely, I like the novel and I like these as well.. Safety driving simulator with the set of very unsafe things - high-speed motorbikes + booze and all kind of drugs :3

This is the second part of my beloved SDS: CAR

You can read the review about the car version here

[So this is EXACTLY the same game. same locations, same options, same booze and drugs except instead of cars you have bikes. Drink up a couple of beers, snort a stripe and go for the adventures. Best thing is to turn off the driver license penalties and see how much time you can survive on the road with the 245 KMH speed and some coke \(According to bikes specs max speed is 270 but best I've got is 245 in the straight line, so it's all lies.\) Variety of deaths and injuries awaits :\)](#)

[I had fun rushing to the sunset, and also this game is cheap on 90% discount. So have fun :0. i r8 8V/8 no click b8 its your f8 i have a thirst you can't s8 and you better not be l8 m8](#)

[but seriously, I mean, it's only 99 cents and it has trading cards, so it is an okay buy. got mine 90% off though with a badge coupon.. Sucked was not fun to read or play.. The servers are objectively great. 128 tick, low ping and almost no loss and variance.](#)

[The community, on the other hand, is the most toxic\u2665\u2665\u2665\u2665\u2665\u2665I've ever seen. Now don't get me wrong, I know I can tilt and be toxic, but I definitely do not do that unless someone's provoked me. I almost always carry, and when I don't, I am a support player that gets traded or sets up his teammates for success. Yet in around 40-50% of games I get people who are toxic or just plain trolling, and when I get triggered I block them. Sometimes, like what happened in my last game however, I don't do that early enough and end up saying some stupid\u2665\u2665\u2665\u2665\u2665\u2665and I get banned but they don't. It's just like when you see a kid getting hit and he hits back, yet only the one who hit back gets punished. WTF?](#)

[TLDR: Basically MM with fewer cheaters \(even though there still are some\) and more trolls. Oh and a weirder ranking system \(I'm A- yet somehow I get queued with C-B players. TF?. I played bob was hungry and never played the original Viktor. When I recieved the coupon for this game I thought it looked good, and it is. Mission based shooter with an interesting mechanic. Got it relatively cheap too with the sale and the copuon. After playing this I am going to have to play the oringal Viktor. You don't really need the story from Viktor to understand as far as I can tell so far. Viktor comes home from traveling the world \(which itself was the game viktor\) to join a band of heroes in defending the world. Fun game, from Bob was hungry to this is a drastic difference, though both games are good.. Update:](#)

[Now the game has base building which for me is great! It adds so much more to the game and the devs are still not finished! They have so much planned and I am convinced they will follow through with it all as they are very active and listen to the community :D](#)

I have started a new series of gameplay videos:  
<https://youtu.be/VcAo5m33tak>

The new update is a huge game changer and brings exciting new elements to the game. highly recommended!

Old review:

"Seriously loving this game so far. what there is so far is very good and I can't wait for more content to be added. I very much recommend it, it's also very comfortable to play!"

It may seem daunting at first and to be honest first plays can be real hard and seem unfair, but as with any survival games you get the hang of it. You learn to prioritise things, expand and craft things that increase your chance of survival. Stick with it and you will see for yourself.

Currently working on a series on Youtube, check it out!"

When i first bought this, It wouldn't run, It kept crashing, runing Windows 10 now & seeing the game has been updated, It seems to run now. I haven't beaten it yet, but since its playable past 20 minutes ( 3 hours straight ) I'll temporarily change it to YES for Recommended If the price is under \$5.00 \*\*\* not beaten yet \*\*\*. HJIDDEN GEM  
10/10. Great game. A bit too heavy in Graphics for nothing, still love the Pre-dynastic more than this.. Neotokyo is an awesome game, if u like GITS and Akira this game is for you, The music the maps the feeling of the game will make you feel like if u were in a GITS episode.

Awesome community as well, really friendly ppl.

Dont give up on it just cuz u cant kill someone, practice and u will have the hang of it.

Communicate alot with your friend and you will achive victory.

Dont let NEOTOKYO die, this wonderful game is what GITS online should have been.

. I enjoyed this game I didnt like the first part in the house as it was far to dark but I messed around with the contrast settings in the game and my monitor and it was much better. Its an entertaining enough game not much story how X got there why X went there the ending is a bit of a let down as well.
